

FAQS about Travel Documents

#1: Why is it important for me to submit a copy of my passport?

- We build a database with this information that helps us determine the type of visa you'll need to travel to your assigned country.
- We also make sure you have the appropriate documentation to enter your PRIME destination and reenter the U.S.

#2: How will I know if I need a visa for my assigned PRIME country and how do I apply?

- Our office will facilitate the process by notifying you if a visa will be needed. We then provide students with visa instructions as well as any required supporting documents for the application process.
- In some cases, you can apply through our office without appearing at the consulate yourself.
- **Ultimately, it will be your responsibility to stay informed and obtain your visa.**
